ALEX SABER

QUALITY ASSURANCE LEAD

EXPERIENCE

TAKL

Quality Assurance Specialist/Quality Assurance Lead, 07/2018 - Present

- Write and run test case scenarios on iOS, Android, and web platforms
- Test new features with Xcode and Android Studio simulators, as well as real devices
- Perform API testing with Postman and web front-end testing in various browsers
- Ensure all acceptance criteria has been met and when necessary, document discrepancies
- Collaborate with developers and management to ensure each ticket contains rich documentation
- Coordinate with Customer Support to triage and catalog new bugs in Jira
- Assist with the writing of acceptance criteria, pulling from deep knowledge of the application
- Manage local environments with Git and Bitbucket
- Utilize DbVisualizer and SQL for staging data analysis
- Monitor Jenkins to ensure successful application builds across all platforms
- Prune backlog to ensure bugs are described accurately and prioritized accordingly
- Oversee the daily stand-up and provide Kanban board insights
- Write and maintain process documentation

CORE10

Application Developer, 09/2017 - 07/2018

- Used C#, API gateway pattern, and Fluent Validation on a microservice-based integration
- Worked on an internal Angular 4 dashboard project
- Fixed AngularJS, C#, and SQL bugs within a loan dashboard application
- Developed features with AngularJS, TypeScript, Less, C#/.NET, and Gulp

NASHVILLE SOFTWARE SCHOOL

Apprentice Software Developer, 07/2016 - 06/2017

- Comprehensive boot camp focused on full-stack software development with Angular and C#
- Applied Scrum, version control, and project planning through individual and group projects
- Created single-page applications with HTML, CSS, Bootstrap, Materialize, jQuery, and AngularJS
- Automated SASS compilation, linting, and bundling with Grunt
- Utilized C#/.NET, Web API, and MVC to create and employ API endpoints
- Practiced OOP and TDD principles with MS-Test and Moq
- Deployed front end capstone project with Firebase

BRENTWOOD UNITED METHODIST CHURCH

Database Management Specialist, 11/2016 - 09/2017

- Designed and implemented requested reports with Arena, the database's front end platform
- Adjusted existing Arena styling with CSS
- Researched and corrected errors, providing insight to the data team

SERVICESTOURCE

Operations Services/Business Intelligence Analyst, 04/2014 - 11/2016

- Leveraged automated VB tools with SQL and Excel to execute weekly ETL
- Delivered daily, weekly, and quarterly dashboards to Sales Management
- Maintained Microsoft Dynamics CRM, Sales Force, SalesLogix, and Lotus Notes
